New for 2015, after a lull of almost 25 years, IWI US is proud to bring back the world famous Galil ACE family of pistols and rifles to the US commercial/civilian market.

The modernized Galil ACE is based upon the reliable mechanism of the original Galil assault rifle first developed by IMI in the late 1960's. Drawing inspiration from the legendary Russian AK-47 and the Finnish Valmet RK 62, the IWI Galil ACE has been continuously improved over the last 40+ years, resulting in today's extremely reliable and highly accurate Galil ACE.

Improvements made since the original Galil was first developed include:

- Charging handle (reciprocating) moved to the left side of the milled steel receiver allowing for weak hand operation
- LR/SR25 magazine compatibility
- Weight reduction with the use of modern polymers
- Full length 2-piece Picatinny top rail
- Picatinny tri-rail forearm with built in, slide on/ off rail covers with pressure switch access
- Side Folding adjustable telescoping buttstock with 2 position removable comb on all rifle models
- Fully adjustable iron sights with Tritium front post
- Backed by a 5 year warranty from IWI
